ABOUT US.

Sports Coach are located near London and are recognised as the world's leading manufacturer, of Golf Simulators. Formed in 1992 the company constantly manufactures and develops, its own hardware and software.

Regularly updating the simulation software, the course library and the detection software technology, with free of charge downloads to its clients, via its FTP site. It has been voted the world's most advanced golf simulator, which is constantly updated by its programming team.

Sports Coach is represented in the UK, Europe, Far East, Middle East, USA, Canada, Australasia, Japan and South America.

RETURN OF INVESTMENT.

Sports Coach Simulators are especially designed to generate the maximum income, for clients 12 months of the year. Game play and virtual practise is popular out of season, whilst the teaching and contests are popular during the golf season.

By having the HD Sports Simulator along with the Sports Coach Golf Simulator, will ensure large revenues all year round for sports fans as well as golfers, wishing to play and practise on the Simulator.

REALISM.

GSX High Definition Graphics, bring a new meaning to the word “Realism.” Never before have golf courses been re-produced, so accurately that it’s difficult to separate the real course, from the simulated course. The 3.5D Rendering is of such high quality, that objects such as buildings, trees, plants, fauna, grasses, water reflections are complete realistic representations of the original.

Playing conditions are as real too with the green speeds, matching the green stimp speed. Choosing the same weather conditions, will set the rain or wind which not only moves the leaves in the trees, it sways the bushes and even the long grass.

MEASURED ACCURACY.

The GSX Golf Simulator is the world's most accurate ball flight detection system. The Super Speed USB 3.0 Cameras accurately measure the golf ball for 3m of ball flight and the golf club for 0.5m before impact, from two separate 90 degree angles. Displaying after each shot extremely accurate measured performance data for ball speed, club speed, swing path, horizontal launch angle, club face angle, vertical launch angle, back spin and side spin.

Enabling very realistic calculated performance data for carry, distance, roll, elevation, shot height and hit factor. Ball Flight is so accurate that every type of golf shot is very realistically represented, such as fades, slices, draws, hooks, straight and even shanked shots.

Surround Sports Software - 11 Sports & 586 Venues.

Super Speed USB 3.0 Camera Technology.

i5 Computer System, Keyboard, Mouse & Computer Cabinet.

x3 HD Projector.

GSX Tournaments.

GSX Virtual Ranges.

3 Golf Mats.

Grassed Flooring 30m².

IR Lighting System (4 Lights).

Surround PVC Cage and Canvas Screen.

Steel Framework and Turnbuckles.

GOLF COURSE LIBRARY.

The Sports Coach GSX Golf Course Library is the most comprehensive library of its kind worldwide. Working closely with prestigious organisations such as the PGA Tour, European Tour, the R & A, the PGA, the PGA of America and the US Golf Association ensures the continual expansion and enhancement of our courses which include the majority of famous tournament courses used for the Open Championship, US Open Championship, PGA Championship, PGA Tour, European Tour, Ryder Cup and the Solheim Cup.

Any Golf Course can be recreated ideal for Golf Academies, who wish to give their members on-course lessons within the clubhouse.

VIRTUAL CONTESTS.

Competitions have never been easy to setup and run, using any of our featured simulated courses. Using Par 3's for the nearest the pin contests, any shot hitting the green is automatically reverse replayed.

Longest drive contests on Par 4's and Par 5's which are also automatic replayed, when hitting the fairway over 200 yards.

GSX VIRTUAL RANGE.

Virtual Ranges are designed to give golfers the perfect practice facility, on the driving range. Giving golfers and professionals the ability to practice and fully analyse shot performance, from their driver. This data is utilised to improve swing technique, allowing golfer to discover how far they are currently hitting each club in their bag, saving them a lot of shots around the course.

GSX VIRTUAL CHIP.

GSX Virtual Chip gives players access to this unique practice facility. This enables golfers to analyse all important aspects of their approach play, by practising the full array of shots. Such as full pitch shots, flop shots, bunker shots and chip and run shots, whether those shots are played from the fairway, semi rough, rough, long grass or over water.
